Tuesday 10 th	First Day of Term 4

PRINCIPAL'S REPORT

PARENT OPINION SURVEY

WE WANT OUR PARENTS TO TELL US WHAT THEY THINK!

Our school is conducting a survey to find out what parents think of our school. The Parent Opinion Survey is an annual survey offered by the Department of Education and Training that is conducted amongst a sample of randomly selected parents at each school. 30% of our parents will be randomly selected to complete this survey. The survey is designed to assist our school in gaining an understanding of parents' perception of school climate, student engagement and relationships with our parent community. Our school will use the survey results to help inform and direct future school planning and improvement strategies.

The survey has changed this year. What was a paper survey will now be conducted **online by ORIMA Research Pty Ltd** and only takes **15 minutes** to complete. The survey can be accessed via desktop computer, laptop, tablet or mobile at any convenient time within the period from **Monday 7th August to Sunday 27th August**.

Approximately 30 per cent of our parents will be randomly invited to participate in this year's survey. Parents that are randomly selected will receive a letter with a link to the survey. All responses to the survey are anonymous. The survey results will be reported back to our school at the end of September and information passed on to parents via the newsletter and through our annual report. For further information, please speak to you child's teacher or visit: <http://www.education.vic.gov.au/school/teachers/management/improvement/Pages/performsurveyparent.aspx>

I would like to urge all parents who receive an invitation to complete the survey online. The link to the survey will be sent home with the children of selected parents. We value this feedback and use the information provided to celebrate our successes and make improvements so our school is the best it can be for our students.

GRADE 3 CAMP

On Wednesday the 26th of July our fabulous Grade 3 students went on camp to Somers. The students enjoyed a huge variety of activities – archery, flying fox, giant swing, low ropes, beach activities and red faces. Special thanks to our staff Mrs Woff, Mrs Toft, Mrs Baker, Kimberly and Jaye for attending the camp. Thank you also to our parent helpers Susan Masters and Khaldon Paull. Well done to our grade 3 children for their outstanding behaviour and for giving everything a go.

STUDENT CONFERENCES

It has been terrific listening to class teachers talk about their students and the pride they felt when their students presented their learning journals to their parents. Our students have worked really hard to set their own goals and track their learning progress throughout the semester. I am so proud of the great job that our students did when presenting their Learning Journals and for the support that staff gave them in becoming ready for this process. These conferences place the child at the centre of the process and allow the student to develop ownership and responsibility for their learning. As stated in previous newsletters if you have any concerns regarding your child's report and their progress or welfare please do not hesitate to make a time to see your child's classroom teacher.

2018 PLANNING

It is hard to believe that we are already planning for 2018. It is this time of year that we submit our numbers to the Department for our 2018 funding. If you think that there is a possibility that your family may not be at Tyabb PS next year could you please contact the office and let us know. This assists us in organising our staffing and grades as early as possible. If you have not enrolled your new prep child please do so ASAP as we already have 3 classes of preps for 2018.

LUNCH TIME LEGO CLUB

Children in our junior school have had the opportunity to participate in a lunch time Lego club thanks to Mrs Matthews. Given the big smiles on faces it is a big hit!! We are currently building up our Lego supplies to allow a greater number of students to participate. If you have any unwanted lego our children would greatly appreciate the donation! Thank you Mrs Matthews for starting this lunch time activity!

*Carole Howden
Principal*

Let's Celebrate !!

Congratulations to our Student of the Week award recipients for the week beginning 31st July.

What is Resilience?

Resilience is the ability to cope with unexpected changes and challenges in your life. It is a life-skill that all people need and it is very important that we raise resilient, confident children. Below is some information about what resilience looks like and ways to help our children become resilient. Resilience is very important for children to help them cope with life's 'ups and downs'. Our students need to utilise resilience skills in all areas of the curriculum associated with their learning.

What does resilience look like?

There's probably not one way to describe what resilience looks like and, of course, no-one is resilient all of the time. There are some characteristics that we might expect to see in a child who is coping well or is resilient. For instance, they might:

- use positive self-talk for encouragement
- capably express their feelings and thoughts
- not hide away from strong feelings
- have helpful, age-appropriate strategies to manage their emotions if they are upset
- rearrange their plans to work around an unexpected situation
- use a trial-and-error approach in their daily life
- remain hopeful and keep on trying if something doesn't work out
- know when to stop trying if they decide the effort is not worthwhile
- actively ask for help if they need it.

It's important to note that children can appear resilient on the outside but not actually be resilient. They may have learned to behave in ways that are acceptable to the adults around them. Sometimes, these children can go under the radar in a school or community setting. A child like this might:

- not openly express their feelings
- put on a front (even though it's obvious they are struggling)
- not fully engage in what's happening around them
- not fully connect with other children and adults in their lives
- tend to give up if things don't go well in the first instance
- not appear confident in dealing with situations themselves (but might not make a fuss about it).

A really good website learn more:

<http://www.kidsmatter.edu.au>

10 Tips for building resilience in children

We all can develop resilience, and we can help our children develop it as well. It involves behaviours, thoughts and actions that can be learned over time. Following are tips to building resilience:

Make connections

Teach your child how to make friends, including the skill of empathy, or feeling another's pain.

Encourage your child to be a friend. Build a strong family network to support your child through his or her inevitable disappointments and hurts.

Help your child by having him or her help others

Children who may feel helpless can be empowered by helping others. Together with your child brainstorm ways they can help others.

Maintain a daily routine

Sticking to a routine can be comforting to children, especially younger children who crave structure in their lives. Encourage your child to develop his or her own routines.

Take a break

While it is important to stick to routines, endlessly worrying can be counter-productive. Teach your child how to focus on something besides what's worrying him.

Teach your child self-care

Make yourself a good example, and teach your child the importance of making time to eat properly, exercise and rest. Make sure your child has time to have fun, and make sure that your child hasn't scheduled every moment of his or her life with no "down time" to relax. Caring for oneself and even having fun will help your child stay balanced and better deal with stressful times.

Move toward your goals

Teach your child to set reasonable goals and then to move toward them one step at a time. Moving toward that goal — even if it's a tiny step — and receiving praise for doing so will focus your child on what he or she has accomplished rather than on what hasn't been accomplished, and can help build the resilience to move forward in the face of challenges.

Nurture a positive self-view

Help your child remember ways that he or she has successfully handled hardships in the past and then help him understand that these past challenges help them build the strength to handle future challenges. Help your child learn to trust himself to solve problems and make appropriate decisions.

Teach your child to see the humor in life, and the ability to laugh at one's self.

Keep things in perspective and maintain a hopeful outlook

Even when your child is facing very painful events, help them look at the situation in a broader context and keep a long-term perspective. Although your child may be too young to consider a long-term look on his own, help him or her see that there is a future beyond the current situation and that the future can be good. An optimistic and positive outlook enables your child to see the good things in life and keep going even in the hardest times.

Look for opportunities for self-discovery

Tough times are often the times when children learn the most about themselves. Help your child take a look at how whatever he/she is facing can teach him/her "what he/she is made of."

Accept that change is part of living

Change often can be scary for children. Help your child see that change is part of life and new goals can replace goals that have become unattainable.

Blow out the candles,
 wish away,
 you are the
 superstar of the day.
HAPPY BIRTHDAY!

BOOK FAIR.

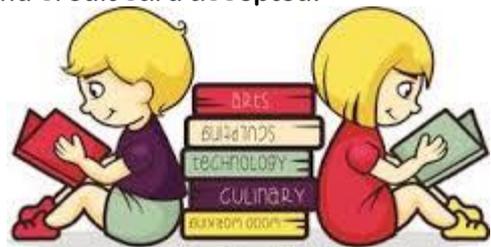

It's that time of year again! We are pleased to announce that we will be holding a book fair from Ashton Scholastic. It will raise money for our school library to purchase books as well as putting a beautiful book or two into your child's personal home library.

When- Monday August 21st - Thursday August 24th

8.30 am- 9am and 3.30-4.00pm each day

Where- In the Grade 5 and 6 building.

Cash and credit card accepted.

© Can Stock Photo

Please come along and support this event.

Woolworths Earn and Learn.

It's up and running!!!

Please collect those filled sticker sheets

and drop them into the collection box in the office, or send along with your child to class. Teachers will then send them to the box each day. Please add your child's name and class to the sheet as we will be having a draw at assembly each week for lucky collectors with a small reward.

You can also send along loose stickers and we will add them to sheets if you don't have enough to fill a whole sheet. Every sticker helps!!!

This fundraiser raises money for our school that is directly spent on resources for classroom use. It is a really easy way to boost our funds and has proved to be a very successful endeavour in the past.

Don't forget to ask neighbours, family and friends to collect for you too.

Many thanks for your support.

Sharon Wright.

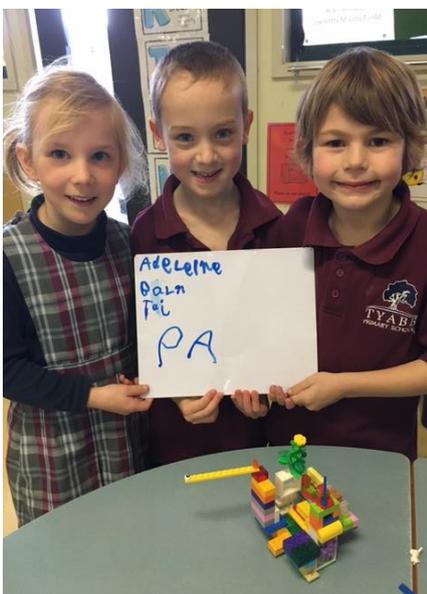

LEGO CLUB NEWS

Monday was the first day for our new Junior School Lego Club. Twenty-eight eager students built the most amazing Lego sculptures during the first half of lunch. They all successfully interacted with other students from the Junior grades, chatting and sharing their love of Lego.

Four junior students will be chosen each Monday to take part in Lego Club and will receive a very special Lego Club ticket that gains them entry to Room 6 for the first half of lunch each Monday. At the end of the session each child displays their wonderful creation and has their photo taken which will be displayed in the window between rooms 5 and 6.

Thank you very much to the school leadership and staff for supporting our very exciting new lunch time venture. We hope to extend Lego Club to the middle and senior year levels in the future, however we require more Lego. Should you wish to donate new, or used, Lego to our new club please come and have a chat with me.

Mrs Tania Matthews
Year 2 Teacher

SPORTS ARENA

On Friday 21st July, the Girls Soccer Team represented Tyabb Primary School and the Crib Point District at the Southern Peninsula Division Playoffs at Dallas Brooks Park in Mornington. The girls played 2 matches for the day, coming up against some tough competition from the schools representing their District.

All students gave their best efforts throughout the day and worked well as a team by encouraging and communicating well with each other. Well Done girls, you should be very proud of your efforts.

I would like to say thank you to all the parents and family members who were able to come down and support the girls and to Mrs Watson for coaching them during the Winter Lightning Premiership.

MUSIC PROGRAM

School Concert:

A reminder about the A/B grouping information. Please let us know at school if you require your children to be in the same grouping as their sibling/s for the concert. Mrs Wyatt has checked every grade and listed all siblings next to each other for reference. She has spoken with the grade teachers who may contact some parents to check what they require. If we don't hear from you we assume you are happy for your children to stay as they are in their grade and in a different grouping from their siblings. P/1A, 2/3A and 6C have been divided and sorted according to their siblings. There are still a few to be finalised. Please let us know asap as STOMP will be placing the students in the dance lessons beginning week 4 dance lesson.

Thank You
Merran Wyatt
