

## **Attention Parents of Tyabb Primary School**

This week I received the following letter to provide greater detail of the upcoming works on Mornington Tyabb Road

Dear Residents

### **Upcoming maintenance works on Mornington Tyabb Rd, Tyabb.**

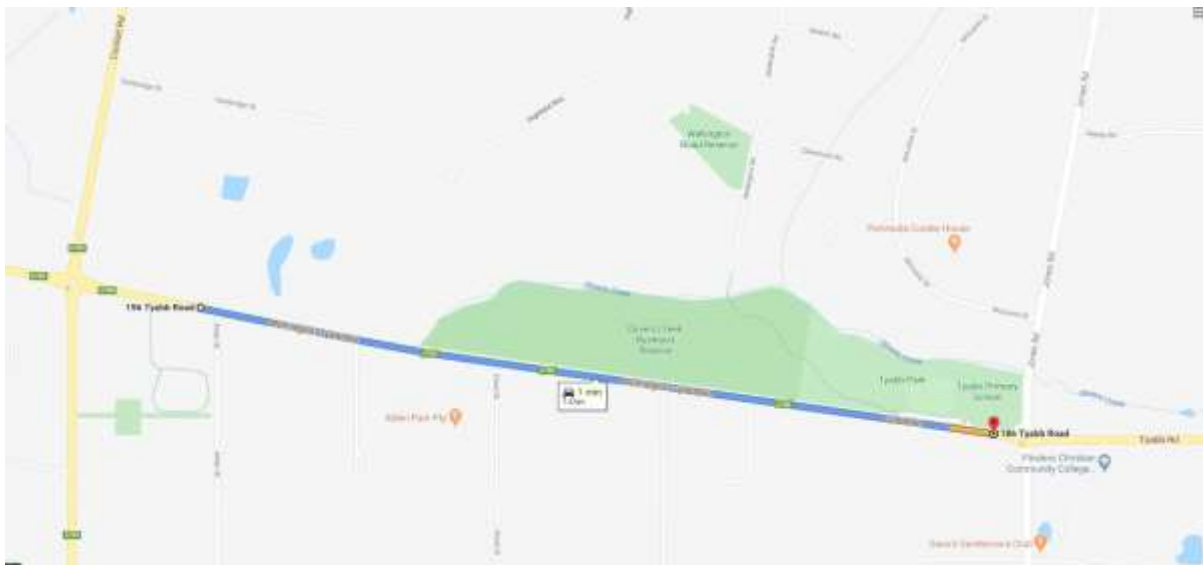

We're working with VicRoads to complete maintenance works on Mornington Tyabb Rd, Tyabb. This work will involve restoring the structural layer of the road, including asphaltting and traffic management.

#### **When to expect us**

Our crews will be working on weekdays between 7.00am – 6.00pm from Monday 16th March until late-April 2020. While we'll generally be working during the day, some of these works may need to be carried out at night and if required we will provide advance notice to impacted residents.

#### **Where we're working**

We'll be working at approximately 1.3km length of Mornington Tyabb Rd, Tyabb between the Alden St and Jones Rd intersections.

#### **How will these works impact you?**

During these improvements, there will be:

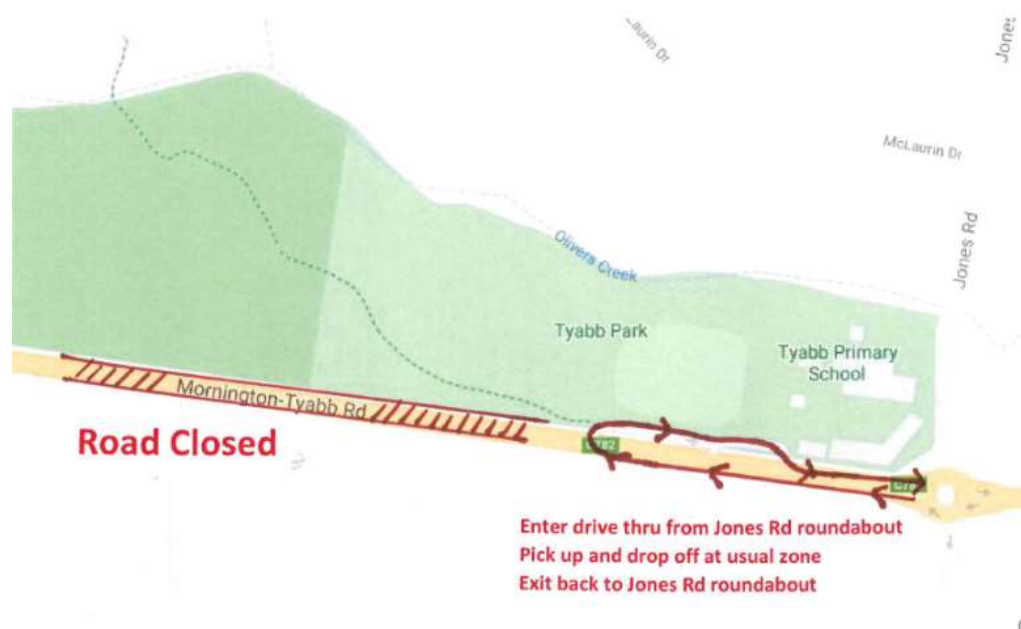

- road closure of Mornington Tyabb Rd, between Alden St and Jones Rd intersections under traffic management. All local/resident vehicle access will be maintained throughout the entirety of the works
- a reduced speed limit during and after works to ensure safety of crews and motorists
- medium-high level noise, some vibration and dust while we remove the existing layer of the road, lay new asphalt and reinstate the road
- periods where some residents' driveway access will be impacted, however before we start working across these driveways, our contractor will contact affected property owners and work to maintain access.

Please look out for traffic management signage and temporary speed reductions, and watch out for our crews when travelling through these areas. We appreciate your patience and cooperation while we carry out these important maintenance works.

## What does this mean for Tyabb Primary School?

It is important that we appreciate that these road works need to be done for the safety of people travelling on a busy road such as Mornington Tyabb Road. As expressed in the letter we need to show patience and cooperation while workers carry out these important maintenance works. These works **will impact our community**, especially during drop off and pick up times. We have received the following instructions to support us with this disruption:

- Mornington Tyabb Rd, between Alden St and Jones Rd will be closed with limited access given for the drop off and pick up of our students from the Jones Road roundabout only.
- You **will not** be able to access our school coming from Coolart Road. You **will only** be able to access via the Jones Rd roundabout. eg If you come down the Jones Rd hill, turn right at the roundabout. Drive down Mornington Tyabb Road to our drive through. Turn right in to our drive through and drop off or pick up as usual. Exit as per usual but remember that Mornington Tyabb Road is closed between Alden St and Jones Rd intersections.
- The works in the area between our drop off and the roundabout will hopefully be completed during the school holidays.

Other suggestions to alleviate traffic at this time include:

- walking to and from school or dropping your child off in a neighbouring street to walk in.
- Children walking to a pick up point in a neighbouring street.
- car-pooling to reduce traffic on the roads during this time.

We apologise for the inconvenience this will cause during this period of time. The roads around the school, especially near the roundabout will be very congested (far more than usual). Please know that this is beyond our control and ultimately is to improve the safety of our roads. We will understand if you are late in dropping off or picking up your child, given that there may be an increase in wait time as parents queue to enter the drive through. We will appreciate your patience and understanding during this time.

Thank you  
Carole Howden (Principal)  
Tyabb Primary School
