

COVID UPDATE

It was announced today that this lockdown—lockdown 6.0 will continue until next week. Not the news we wanted to hear as we appreciate that many of you are facing significant difficulties in your lives, not to mention the challenge you face with remote learning.

For those of you who are supporting students with their learning we thank you so much for your continued efforts and for the encouragement you are giving your children and the teachers who are working behind the scenes to support your child's learning. We truly appreciate that this is not easy and know that you are doing your very best. If the work is too hard or your child is having a rough day, contact your child's teacher for support or provide your child with an alternative. The mental health and wellbeing of your child is equally as important. Be comfortable saying you have done your best as we will totally understand this given the circumstances.

Next week we will have a Wellbeing Wednesday to break up the week and give our students a chance to relax and have some fun. Teachers are also having theme days to change things up a little and keep children engaged. Take care. We will get through this together.

PARENT OPINION SURVEY

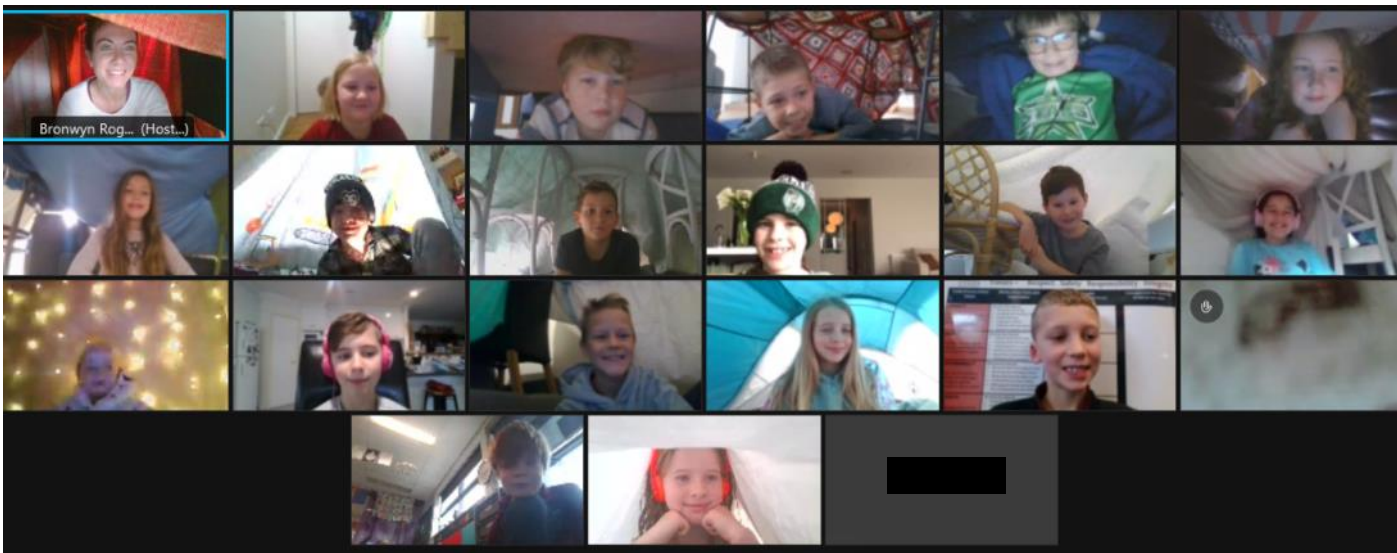

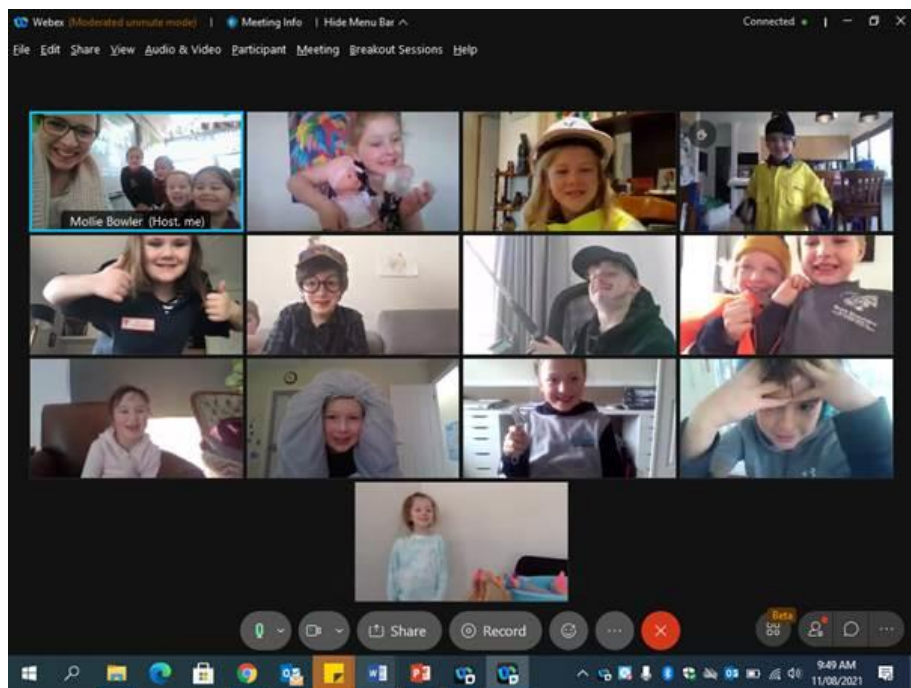

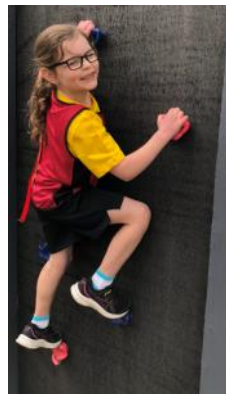

As mentioned in the last newsletter some families have been randomly selected to participate in this year's parent opinion survey. If you received an invitation by email we encourage one parent from the family to complete the 15 minute survey. The survey is designed to assist our school in gaining an understanding of parents' perception of school climate, student engagement and relationships with our parent community. We value this feedback and use the information provided to celebrate our successes and make improvements so our school is the best it can be for our students. The survey closes on Sunday 22nd August.

NATIONAL PRINCIPAL'S DAY

Thank you to our fabulous staff for organising flowers for National Principal's Day. Kris Grinsted and I sadly have a very similar photo last year with masks on showing just how long the pandemic has affected our lives. The challenges of the past two years have reinforced how much we love working with the children, parents and staff at Tyabb PS. We will never take what we have at Tyabb Primary School for granted. It is truly a special place to be!

REMOTE LEARNING THEME DAYS

NATIONAL TREE PLANTING DAY!!!

Plant a Tree

Persuasive Piece written by 2B

Introduction

Trees are an important part of our environment. Trees provide many benefits to not just humans but also to native animals. Unfortunately, trees are being cut down and this is causing many problems.

Reason 1

Firstly, all living things need oxygen and clean air to survive. The more trees we have, the more oxygen we will have to help us breathe and stay alive.

Reason 2

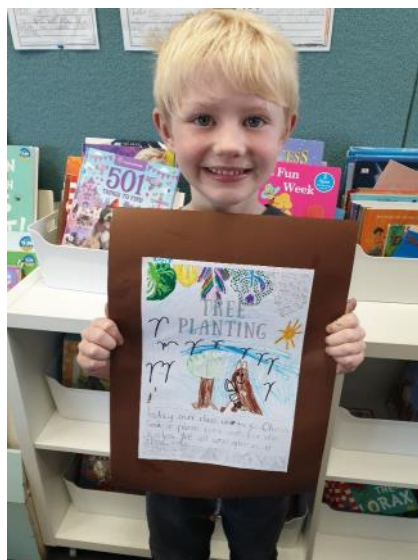

Secondly, trees provide a habitat for animals to live in and keep them safe. Birds build their nests in the trees, possums also make their homes in the trees and koalas need the trees for food. They feed on eucalyptus leaves found on many native trees in Australia.

Reason 3

Lastly, trees provide shelter and protection from harsh winds and the strong summer sun. Without trees, we could suffer from severe sunburn!

Conclusion

In conclusion, it is very clear that trees are vital to keep us safe and healthy. Plant trees and you are helping save us all!

1B did some fantastic writing about their trip in to Oliver's Creek Reserve to plant trees!!

National Tree Planting Day

With the assistance of dedicated volunteers, grades prep to 6, planted 800 Manna, Peppermint and Swamp gums and shrubs. These particular trees are preferred Koala habitat. Our ultimate goal is to encourage more of these adorable marsupials back to the area. Well done Tyabb Primary School!

Thank you Mrs Bartlett and Yas for organising the day and helping our students to plant trees in the reserve. Thank you to the Mornington Peninsula Shire for organising the event, plants, equipment and staff for the day.

National Tree Planting Day

Treat people the way you want to be treated. Talk to people the way you want to be talked to. RESPECT is EARNED, NOT GIVEN.

RESPECT

Respect is one of Tyabb Primary School's five focus values. It is a value that is intertwined in absolutely everything humans do. Lately we have noticed through lockdowns and returning to school some students are beginning to show less respect to themselves, their peers and their teachers.

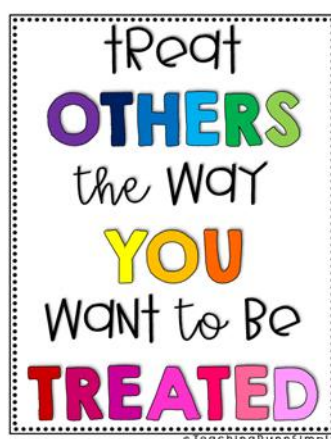

A focus of all the staff when students return onsite, is to go through ways we can show respect to each other and to our school. I intend to visit all classrooms to go through our expectations again and brainstorm with students ways we can show respect to each other. We will use the value of Respect for our focus for the remainder of the term.

It would be fantastic for families to work with their children and remind them of the importance of showing respect at all times, especially when they are at school.

Some of the behaviours we are always looking for at Tyabb PS are:

- Being kind and caring
- Accepting and including others
- Actively listening
- Using good manners
- Following staff instructions
- Caring for property / environment

New Canteen Ordering System

Our school canteen is very excited to announce that we will be moving to online ordering starting with canteen lunch next week. This means that you can register today and put your order in!

It is as simple as downloading the Sentral App on your mobile phone and then completing the following steps:

Open Sentral App.

Click on the Link button on the Sentral home screen.

Click on Canteen link. This will take you to QuickCliQ.

Sign up and complete registration form.

Receive a link via email to ACTIVATE your account before logging in.

ADD STUDENT. Add your child's details, select their school and save to your account.

ADD CREDIT to your online wallet before ordering or pay as you go using credit or debit card.

Select MEAL ORDER and you're good to go.

Orders can be placed up to 28 days in advance, however weekly lunch specials will be available to order from Wednesday afternoon for the following week. You will view these on QuickcliQ through the Sentral App.

Please note that this online ordering system is only for LUNCH orders and Tuck Shop will operate as normal accepting cash over the counter at lunch time.

Things you need to know:

Cut off time for online ordering is 9.15am Tuesday.

If you need to cancel the order this must be done prior to 9.15am on the Wednesday to receive a full refund (minus booking fee).

To top up your QuickCliQ Wallet you have 3 options-

Direct Debit- 50c transaction fee. **** This is the most cost effective option****

(e.g. If you put \$50 into your Quickcliq wallet at the start of Term you will only pay this 50c transaction fee once until you need to top up again.)

Credit Card- The surcharge is 1.5%

PayPal- The surcharge is 3.8%

When placing an order there is a small 21c fee per order per student.

Families will no longer need to provide a lunch order bag. If you have recently purchased canteen bags from the school please contact the school office to arrange a credit on your school account upon return of bags. Bags must be unused.

*****Please note that it takes 2-3 business days for direct deposit money to appear in your QuickCliq wallet. Credit card payments can be used until the funds appear in your account*****

If you need any assistance with QuickCliQ their support team are available Monday to Friday, 7.30am to 4pm on 1300 11 66 37.

Families will have until the end of Term 3 to transition over to the new online system.

Classroom Capers 3B

The last couple of weeks have seen all of our children show great resilience as they have moved from remote learning, back to school and then back to remote learning. While at school we had time to learn about multiplication and arrays. During remote learning 3B have completed set tasks and had time to enjoy activities they love when they are spending extra time at home.

Inquiry Learning

What is Inquiry?

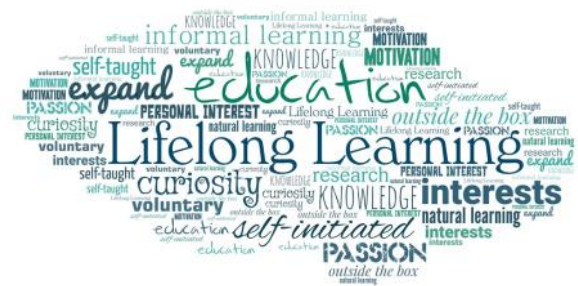

Inquiry is an approach to learning where students find and use a variety of sources of information and ideas, to increase their understanding of a problem, topic or issue. It requires more of the student than simply answering questions or getting the right answer; it espouses investigation, exploration, search, quest, research, pursuit and study. Inquiry does not stand alone. Inquiry should engage, foster interests, connect to the student's world and engage students in the curriculum in a meaningful way. Although it is often thought of as an individual pursuit, it is enhanced by involvement with the class community, each student learning from the others in social interaction.

Why do we choose Inquiry learning at TPS?

Inquiry allows students to have some choice in their learning. It fosters curiosity and a love of

the why and how. Inquiry learning encourages lifelong learners. When students use the Inquiry approach, they learn how to find out the answers for themselves rather than a list of facts to remember. This means that they can learn for themselves now and in the future.

What can you do to help your child with Inquiry?

You can:

- ⇒ Encourage questions
- ⇒ Ask, “What are you learning in Inquiry?”
- ⇒ Talk about hypotheticals
- ⇒ Encourage brainstorming
- ⇒ Discuss problems and solutions
- ⇒ Research interesting topics together
- ⇒ Listen to new ideas or knowledge
- ⇒ Celebrate facts
- ⇒ Foster a love for ‘finding out’

Term 2 & 3 Inquiry

Independent Research is an important part of Inquiry Learning (Grade Five)

Look at the focus as student engage in their own research

Prep

Excursions form an important part of the Tuning In part of the Inquiry process

Grade Six

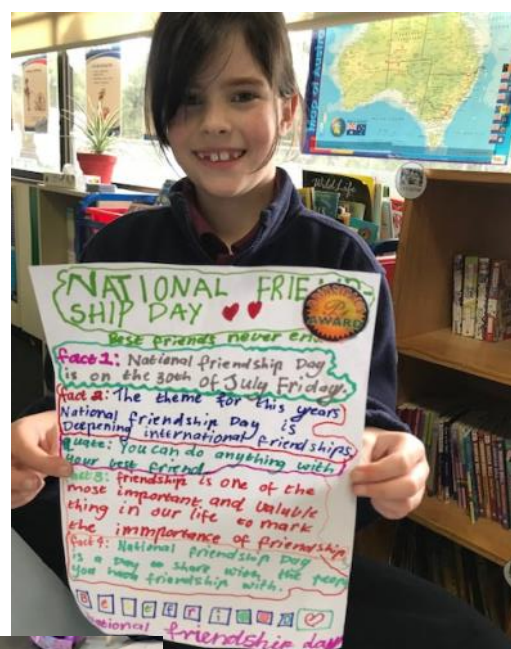

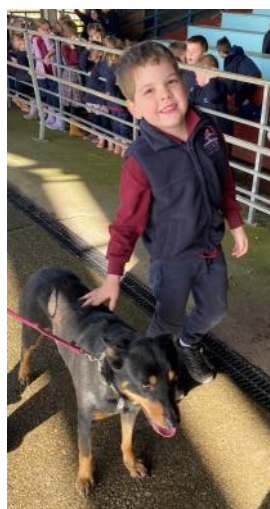

Sharing new knowledge and our expertise in subject

Term 2 & 3 Inquiry

Prep

Grade Three - proudly showing the finished product

Grade 3 - Sustainability Project

Grade 3s PowerPoints about Celebrations & what they mean to Australians & famous Indigenous Australians and their achievements.

Term 2 & 3 Inquiry

Working together

Using the newspaper as a source for information

Grade Two - Inquiry into the Olympics

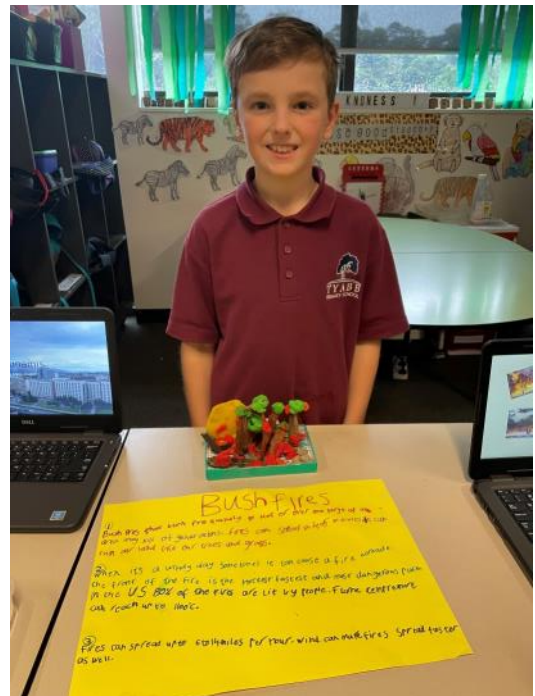

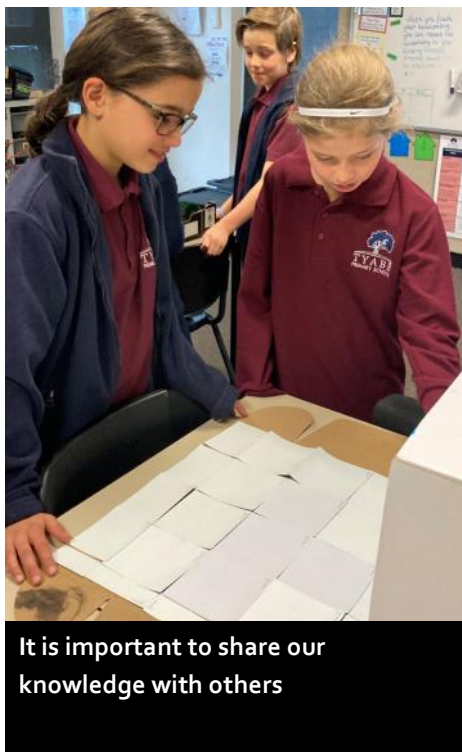

Term 2 & 3 Inquiry

Grade Fours - Inquiry into Earth Science and how the land changes

Bushfires
Bushfires are fires that burn in dry vegetation like grass, trees and shrubs. They can spread very quickly and are very dangerous. Bushfires can cause a lot of damage to the land and the animals that live there. Bushfires can also cause a lot of smoke and ash, which can be harmful to people and animals. Bushfires can be started by lightning, but most are started by people. We can help prevent bushfires by being careful with fire and not leaving things that can catch fire around.

It is important to share our knowledge with others

Grade 1 - Inquiry at home

National Tree Day - A Whole School Success

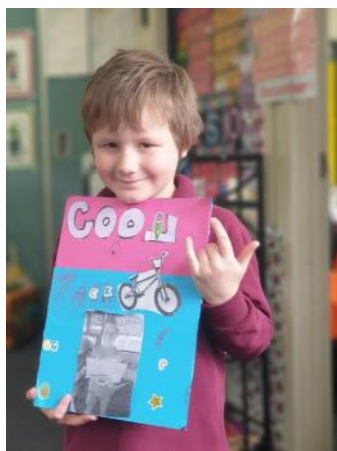

The Tyabb Primary School's Green Team would like to thank everyone for making the National Tree Day a massive success - we even featured on the National Tree Day Instagram story!

Tyabb families raised just shy of \$600 for our new chicken complex and we planted 800 trees and shrubs in Oliver's Creek for our small local koala and wild life populations. Our school motto of "From little things, big things grow" could not be more appropriate. Fair to say the students and staff of Tyabb love a dress up day and our school was a sea of green for National Tree Day.

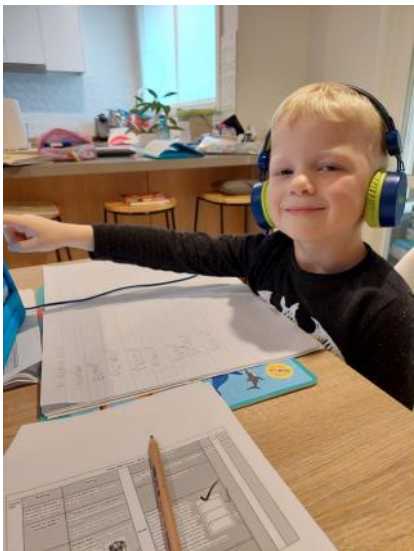

Remote Learning

In Year 1 we have been covering our Writer's Notebook. We believe that we are all authors!

Remote Learning

Blow out the candles,
wish away,
you are the
superstar of the day.
HAPPY BIRTHDAY!
