

TERM THREE PUPIL FREE DAY

FRIDAY 25th JULY

Student Led Conferences

Children only attend for their 20 minutes conference.

TERM FOUR PUPIL FREE DAY

Monday 3rd November

Day before Melbourne Cup Day

MARK IN YOUR DIARY

Friday 5th December

Tyabb Primary School

Christmas Carols Picnic

SILLY SOCK DAY!!!

TOMORROW

Wear silly socks and bring a gold coin donation to encourage people to be inclusive and show that people can be different but deserve to be treated the same as everyone else.

All money raised will be sent to Down Syndrome Australia.

FREE DRESS DAY with odd, fluffy, long, patterned or CRAZY socks!

THANKS FOR A GREAT TERM—TYABB PS!!!

As we approach the school holidays I would like to thank everyone for a fabulous term and wish our students all the best for the holidays. This term has been full of many exciting activities including camps, excursions, Education Week activities, Alpha Productions, sporting activities, Mothers Day Stall and breakfast and the many other activities that occur within grade levels and classrooms. Thank you to our students for a fabulous term and to the parents and teachers who support them in making the most of the opportunities that we provide.

We wish our students a fabulous school holidays.

WORK OVER THE HOLIDAYS

Oval Upgrade

After years of struggling with a water clogged oval during winter and banning our students from using it, we have finally raised the funds needed to put in drainage, top dress and reseed. We will also be digging up the old running track and reinstating it with a new asphalt track.

These works will take place during the upcoming holidays but will put the oval out of action for most of term 3 while the works are completed and the grass re-establishes itself. We are excited to be having these works done and believe that this is a short term inconvenience for long term gain.

To support our students during lunch breaks we will be offering our students some extra, indoor lunch time activities and Tyabb's Got Talent.

Office refurbishment

Over the holidays we will be demolishing office cabinets, removing the old pink and mustard colours and installing brand new office cupboards and benches. After 20 years it was time to refurbish and modernize our office which is very exciting.

Other holiday jobs include—completion of ramps, levelling of pavers around the hall and general garden maintenance.

Star Citizen

The Star Citizen Award is presented to students who display the school values of respect, responsibility, safety, integrity and optimism to a high standard all the time. They speak politely to staff and other students.

Show care for themselves and others. Help students and teachers who are in need of assistance. Treat others and themselves with respect and give all activities their best effort. Students are selected through a nomination process conducted within their year levels with student and teacher input. Congratulations to the following students for term 2:

Prep-Kirra

One -Tialah

Two-Maddie

Three-Miller

Four-Jemma

Five-Judd

Six- Jaden

Junior School Council

BRING A GOLD COIN DONATION AND WEAR
YOUR MOST FABULOUS SOCKS TO SUPPORT
A GREAT CAUSE.

ALL MONEY RAISED WILL BE SENT TO DOWN SYNDROME AUSTRALIA.

WEAR FREE DRESS

FRIDAY 4TH JULY 2025

LOTS OF SOCKS DAY

You can wear colourful socks, odd socks, long socks, short socks, footy socks or striped socks.

You can wear them on your feet or in your hair!

The more unusual the better!

EMBRACE DIVERSITY AND ENCOURAGE PEOPLE TO BE INCLUSIVE.

**PEOPLE CAN BE DIFFERENT BUT EVERYONE DESERVES
TO BE TREATED THE SAME.**

SO REACH OUT AND GET TO KNOW THE PERSON, NOT THEIR DIFFERENCES!

Life's a song in 2B

It's been a fantastic term of learning in 2B, with students exploring a range of exciting topics. From mastering the art of telling the time and renaming numbers in Maths, to diving into poetry of Dr Seuss and crafting information reports in English.

However, if you ask the students what they look forward to the most each morning, the answer is clear - Song of the Week. This daily ritual has become a special part of our classroom routine. Each day begins with a student volunteer leading the class in reading the lyrics, followed by a lively singalong that sets the tone for the day of learning.

The 2B playlist is full of favourites, with "Crocodile Rock" holding the top spot. Other much-loved tunes include "Video Killed the Radio Star," "Valerie," and "Cover Me in Sunshine." These songs don't just bring smiles and energy—they also serve as a powerful tool for learning.

There's plenty of research showing that music can support positive mental health, and in 2B, it's easy to see why. Beyond boosting mood and creating a strong sense of classroom community, **Song of the Week** also gives students the chance to practise their reading fluency, grow in confidence, and find their voice.

TEACHING & LEARNING UPDATE by Mrs Earl

REPORTS AND STUDENT LED CONFERENCES

Our classroom teachers have been busy working on Semester 1 reports. These reports are a valuable tool to understand how your child is progressing in relation to the Victorian Curriculum 2.0 Foundation –Year 10.

Semester reports provide a clear summary of your child's learning achievements in each subject area, such as English, Mathematics, and Science. They also highlight their effort and behaviour. Teachers assess your child's work over time, using a range of classroom activities and assessments to form their judgments. Reports will be published, via Sentral, during the last week of this term. I encourage you to discuss the report with your child—celebrate their progress and talk about learning goals for the future ahead of our Student Led Conferences in Week 1, Term 3. Student Led Conference bookings are now open on Sentral and will remain open until Wednesday 23rd July. **Student Led Conferences will be held on Thursday 24th July (afternoon/evening) and Friday 25th July (all day).** On Friday, 25th July, students will not attend regular classes. Instead, they will come to school to participate in their Student Led Conference with you.

REPORTING TO THE MATHEMATICS CURRICULUM 2.0

Some of our parents may be aware of changes to student reporting for mathematics in Victorian government schools. The Victorian Curriculum and Assessment Authority (VCAA) recently published its revised mathematics curriculum (Mathematics curriculum 2.0). All Victorian government schools are required to use this revised mathematics curriculum for school reporting in 2025. On your child's previous report, the teacher reported against the 3 strands of the achievement standard for mathematics (Number and Algebra, Measurement and Geometry, and Statistics and Probability). Under the new Mathematics curriculum 2.0, your child's teacher will report against the achievement standard as a whole, providing a single, aggregated score for the subject area of Mathematics. As the achievement standards reported on have changed, the first time you receive a report under the Mathematics 2.0 curriculum, it will only show achievement and not progress. For all reports after this, progress will be shown against the single achievement standard. The VCAA made these changes to help teachers plan their teaching and learning programs in mathematics, giving them more flexibility to support students to link ideas within mathematics and also with other curriculum areas.

WHY FORMATIVE ASSESSMENT MATTERS IN PRIMARY SCHOOL

While formal reports are an important way to communicate with parents about their child's progress, they represent just one aspect of a teacher's role. In every classroom, teachers work diligently to support their students' growth—academically, socially, and emotionally. One of the most powerful tools they use to guide this growth is formative assessment.

Unlike end-of-term tests, which evaluate what students have learned, formative assessments take place continuously in small, everyday ways. They allow teachers to monitor learning in real time and respond quickly to students' needs, ensuring that no one falls behind. This approach is often described as "assessment for learning" rather than "assessment of learning." It involves checking students' understanding while they are still in the process of learning, rather than waiting until the end.

Formative assessment helps teachers identify which students are on track and which may need additional support or a different teaching strategy. There are many ways this type of assessment is used in the classroom. One of the most common is through questioning. When teachers pose open-ended questions during lessons, they aren't just testing recall—they are encouraging students to articulate their thinking. The responses provide valuable insight into how well students understand the material and whether a concept needs to be revisited.

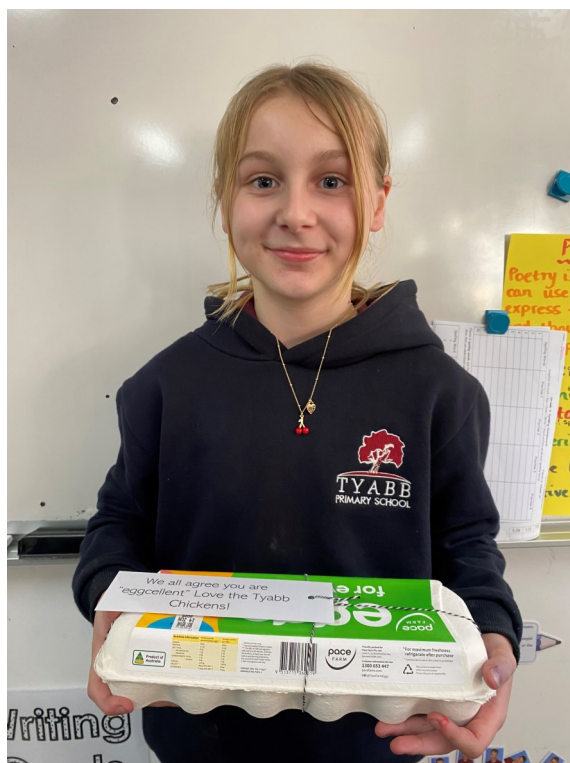

Observation is another key strategy. As teachers circulate the classroom, they listen to student discussions and watch how children approach tasks. This allows them to notice who is confident and who may be struggling, even if a student doesn't speak up.

Mini whiteboards also offer a quick and engaging way to check understanding. Students can jot down an answer and hold it up for the teacher to see, giving everyone a chance to participate—not just those who frequently raise their hands. These quick snapshots of learning help teachers identify patterns, such as common misunderstandings that might need to be addressed with the whole class. Formative assessment is a useful and supports each child's learning as it happens.

BASS COAST WHALE DISCOVERY TRAIL TOP SPOTS

- CROSSROAD POINT**
The site of Captain Crossland's 18th birthday after a tragic accident. Watch for whales entering the bay close to shore.
- WESTERN PORT**
Humpbacks have been spotted from the jetty, and bottlenose dolphins can be seen in the bay all year round.
- PUNCHBOWL**
Follow the spectacular George Bass Coastal Walk and look out for whales from the high cliffs overlooking the southern end of Bass Strait.
- CAPE PATTERSON**
Patterning Marine Park encompasses rock platforms and underwater reefs. This is a great spot for whale spotting and snorkelling.
- EAGLES NEST**
Site of Australia's first dinosaur bone discovery, the Cape Patterson Dinosaur. The 150-million-year-old rock.
- SUMMERLANDS**
Home to great surf and the world's largest Little Penguin colony. Short-tailed shearwaters and hooded plovers live here too.
- PYRAMID ROCK**
A dramatic basalt outcrop, home to short-tailed shearwaters, black-faced cormorants and rarely sighted dolphins.
- CAPE WOOLAMAI**
A large colony of short-tailed shearwaters return from Alaska annually to breed here. Look out for albatross and sea eagles nesting above.
- HARMERS HAVEN**
In 1800, Captain William Hovell discovered coal here and in 1900 the Artisan ran aground at nearby Wreck Beach.

Explore the **WHALE DISCOVERY TRAIL'S** iconic bays, headlands and beaches as you search for whales from spectacular coastal viewing points.

Nominate Your Little Heroes for the St John Ambulance Victoria Champion Awards 2025!

Has a child gone above and beyond after taking part in the First Aid in Schools Program? Maybe they have stayed calm in an emergency, helped a friend in need, or even saved a life using their first aid skills?

If so, here is their chance for recognition

The St John Ambulance First Aid Champion Awards 2025 are just around the corner, and now is the time to award the next generation of first aid heroes. This award celebrates people who have made a real difference in their communities, and the children in our school might be one of them!

★ Nominate your little superhero today! It only takes a few minutes, and your student could be recognised at a special event celebrating courage, kindness, and quick thinking.

🏆 If your child is selected, the grand prize is a brand-new defibrillator! The winner can choose which organisation they would like to give the life-saving device – it could be our school community, just for sharing a story of bravery.

Let's shine a light on the amazing young people who are already making the world a safer place. ❤️

STEM ZONE SCHOOL HOLIDAY PROGRAM

ADDRESS: Shop 2, 81 Main South Rd, Drouin VIC 3818
 VISIT: stemzone.com.au
 EMAIL: hello@stemzone.com.au

\$50 per session Book online at: <https://www.stemzone.com.au/school-holiday-program>

July 14 Monday

9 am - 12 pm : The Magic of Science
 Delve into a magical world using Science! Perform experiments to create unexpected changes, make objects that seem to defy gravity and watch as your demonstrator creates fire from just 2 powders and a little bit of friction!

1 pm - 4 pm : Who's Got Gas?!
 Investigate the magic of gases as we generate some to combust, harness the power of compressed gases and explore the movement of gases with hot and cold currents. A truly gusty experience for all!

July 15 Tuesday

9 am - 12 pm : Plastic Fantastic!
 Plastic polymers as you've never seen them! Recycle old plastic bags to create a placemat, bookmark or wallet as well as moulding a figurine out of a low melting point polymer.

1 pm - 4 pm : Food Science
 An afternoon snack has never been so fun to prepare! In this session we will be creating an afternoon tea using Science! Make ice-cream or a slushy without a freezer, make your own gummy bears to compare to store bought ones and explore the link between taste and smell. (In this session children will be tasting a variety of foods.)

July 16 Wednesday

9 am - 12 pm : It's Hot and it's Cold!
 Ever been fascinated by the differences in the way substances behave when they are hot or cold? In this fluctuating session, children perform a wide range of experiments to investigate the world of temperature. Who remembers the egg in the flask?!

1 pm - 4 pm : Spa Science 3.0
 In this brand new session, our budding Scientists will make three products to take home including their own soap, perfume and wheat bag. Children will come home smelling amazing!

July 17 Thursday

9 am - 12 pm : Winter Wonderland
 When you can't go to the snow, scientists make some! In this session, children will make fake snow and build a snowman ... Only to melt him with Chemistry! Full of icy investigations, your children will have a blast building igloos with Science and making a few crafty creations as well.

1 pm - 4 pm : STEM Zone Regatta
 Engineering at it's best as our children design and build their own boats. Once their construction is finished, they then race their boat on our 5m Regatta! This is a session full of creativity, construction and cackling!

Reminder: Children must bring a labelled drink bottle and a snack!
